DODGELAND SCHOOL DISTRICT
Board Policy Manual

370

EXTRACURRICULAR ACTIVITY PROGRAMS

An extracurricular activities program shall be offered to students in district schools. The purpose of the extracurricular program shall be to enrich student learning and development through a wide variety of experiences that foster personal, social, intellectual, emotional and physical development.

The board encourages the full participation of students in grades K-8 in extracurricular and recreational programs and activities. For purposes of board policy, "full participation" means fair and equal participation to the extent that the budget, facilities or type of activity allows.

Participation in extracurricular activities shall be in accordance with established school activity rules. Students who violate school and/or activity rules shall be subject to disciplinary action.

The district requires equal access to extracurricular programs and activities for all students. The district shall not discriminate in admission to any program or activity, standards and rules of behavior, disciplinary actions or facilities usage on the basis of sex, race, religion, national origin, color, ancestry, creed, pregnancy, marital or parental status, sexual orientation, physical, mental, emotional or learning disability or handicap. This policy does not, however, prohibit the district from placing a student in a program or activity based on objective standards of individual performance. Discrimination complaints shall be processed in accordance with established procedures.
