**SCHOOL BOARD GOAL SETTING**

The School Board recognizes the value of the goal setting process for school improvement. The goal setting process involves assessing district-wide needs and concerns and translating such concerns into achievable goals. The purpose of the goal setting process is to provide direction for administrative and Board action.

Long-range goals are to be established by the Board. Upon completion of the goal setting process, the administrative team with assistance from the teaching staff will develop an action plan and timetable to facilitate successful completion of the goals. Goals will be monitored and adjusted, as necessary, throughout the year.
